## Retraction

This article is retracted.

Hereby, I, Kamal Heidari Soureshjani, the lead author of the article titled “An Investigation into the Iranian EFL Language Learners' Attitudes on TOEFL iBT” (Soureshjani et al. 2012) published in *Language Testing in Asia*, Volume 2 Issue 3 in July 2012, officially ask you to retract the article. The reason for such a decision is that I recently noticed from a colleague that the real number of participants is less than what has been mentioned in the article. Therefore, I immediately decided to let the journal officials know. I express my deepest apologies to the journal officials and also all readers for such an unintentional incident.
